Turn Your Imagination into Reality with Techno Wood ..

Our Creativity and your Personality Is easy now with Techno Wood ..

# PROLOGUE

The Kingdom of Saudi Arabia is witnessing a comprehensive renaissance and sustainable development in all fields and in all sectors. What encouraged investors to expand the scope of their investments, especially in the economically promising sectors such as the wood industries and furniture sector, which is considered one of the most developed sectors, especially in the Kingdom of Saudi Arabia, as a result of the construction and population growth.

This market is also characterized by an increase in demand versus supply. This prompted the Abdul-Aziz Bin Saleh Al-Moosa Group to expand its investments in this field to meet the needs of the market, contribute to the enrichment of national industries, and provide job opportunities for Saudi competencies by establishing a factory for wooden products and furniture at the latest level to meet the needs of the local market and provide modern products manufactured according to the highest quality standards Globalism.

#### **Word of the President:**

The Techno Wood Factory for Industry is one of the most prominent newly established wooden products and furniture factories inside and outside the Kingdom. It is the result of studies, planning and consulting efforts in the field of the Saudi industrial sector in general, and specifically in the wood products industries sector, such as doors and furniture of all kinds.

This investment is made primarily to meet the needs of the Saudi market for distinguished and modern types of wood products with international specifications, and according to the tastes and desires of the region directed to the Saudi market first, and then to the Gulf, Arab and regional markets in general.

#### **ABDULAZIZ S. ALMOOSA**

## **OUR MISSION**

That Techno Wood Factory for industry become a pioneer and distinguished in manufacturing wooden products and furniture to produce products characterized by high-quality designs and high quality that satisfy the local and regional customers.

#### **OUR MISSION**

The Techno Wood Factory for Industry seeks to manufacture wooden products and furniture accordance to the highest international quality standards, to meet the desires of all its customers by providing a wide and integrated range of ready or manufactured products according to customer requests using advanced technology and a brilliant work team and excellent management, contribute to the success of the factory and its continuous development, to become The factory is a qualitative addition to the national wood products industry that amounts to a global competitiveness in this sector.

## **ABOUT US:**

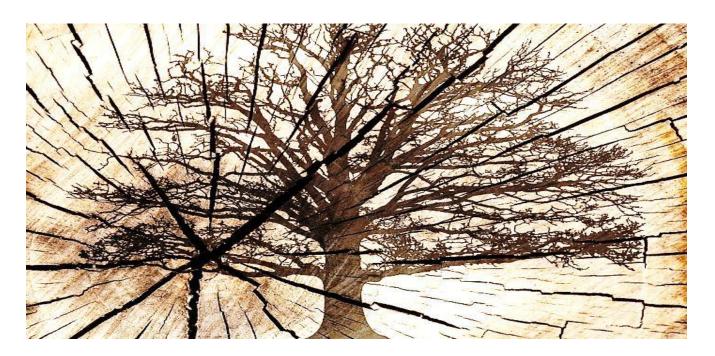

The factory employee has 20 years of experience in the manufacture of wood of all kinds (such as doors, cup boards, furniture, wall cladding) and everything related to timber manufacturer.

The factory depends primarily on the machines is very modern high-tech, which saves the customer the quality and speed of implementation required, the use of units of modern connectivity also in Furniture.

The fabrication and installation team on our factory has highly efficient and friendly enough experience to end work on time and the quality required

The factory is specializing in the manufacture of all wooden doors by design and specifications required, and all materials used in manufacturing are tested before the start of industrialization.

And the desire of us to serve the client in the form required, we give a certificate on our guarantee against manufacturing defects.

\_\_\_\_\_

#### **OUR PRODUCTS:**

#### 1. INTERIOR DESIGNS

We have a dedicated team of professional designers to meet the needs of our customers. A distinguished team with extensive knowledge and experience in the international and Saudi market supported by national talents.

This section generally serves commercial and residential projects. Our team is characterized by

the ingenuity of creativity while keeping pace with international developments in the field of design art to create a unique identity in order to distinguish our interior designs for the quality and elegance of interior design.

#### 2. WOODEN DOORS

By virtue of our knowledge of the types of wooden doors and our experience with the quality of wood used in their manufacture, we have the ability to assist you in choosing the appropriate doors for your homes, offices and different facilities. With this, we have become specialized in manufacturing all wooden doors, according to the usage and specifications to be achieved.

#### Fire Rated Doors

They are doors that can prevent the transmission of fire and smoke through them. These doors are divided according to several international systems, the most famous are the British System (BS) and the American System (UL). We are approved from the Intertek Laboratory to manufacture the two systems, as well as we have an approved certificate from the UL Laboratory (American Laboratory) to manufacture the Fire rated doors and our name is included in the global list of approved manufacturers.

It is worth noting that each type has different technical specifications than the other type, and the most important points of contention are in the thickness of the fill used, the type of heat-inflating rubber insulators used, as well as the thickness of the throat and its specifications in terms of humidity and density. The duration of the resistance varies for each of the two systems and is as follows:

- 1- BS minutes of resistance are 30, 60, 90 and 120.
- 2- UL 10c and 10B, minutes of resistance are 20, 30, 45, 60, 90 and 120.

## Solid Wooden Doors

Solid wood doors are made from natural wood as the door frame and panel and are used in manufacturing expensive wood, such as cherry, walnut, teak, beech, sandalwood, oak, meranti and mahogany, because these materials cannot be easily deformed, resistant to corrosion and have thermal insulation properties in addition to their beautiful appearance that consider a great choice for decoration.

#### Semi-Solid Wooden doors

Semi-solid wooden doors are a mixture of natural wood as a door frame with medium density filler 18MM double sheet. Usually used in expensive wood, such as cherry, walnut, beech, oak, mahogany and meranti, this combination provides durable doors that are beautiful in appearance due to the easy diversification of the design of the shelf and this type of door is one of the most preferred choices for decorators.

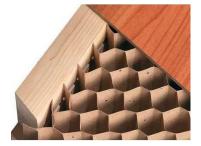

#### Flush Wooden Doors

The flush wooden doors are a frame of wood that filled with a sheet of industrial wood (Chipboard core) ether hollow or solid. Then an external frame of solid wood to be added to save the door from the side of the exposed sides of the shocks. Then it is will covered with MDF panels. Then it is will pressed with any type of natural or industrial veneer. These doors are usually used in the interior rooms. These doors are considered the most in-demand by the public due to their durability, quality and affordable price.

# Commercial Wooden Doors

They consist of a thick frame of pinewood that is filled with pinewood slats, foam or honeycomb. Then it is will covered with MDF panels. Then it is will pressed with any type of natural or industrial veneer. The thick frame of the pinewood used to keep the

door from the outside exposed to shocks. These doors usually used for commercial projects.

#### 3. CABINETS AND WALL UNITS

After completely completing the design stage and after making all your required adjustments, we send the design to our factories to begin the manufacturing process with extreme accuracy using the best manufacturing methods and technologies in the world, and we also manufacture it using the best Italian and German luxury materials.

By measuring the areas and taking the required information from you, we proceed to the

design process on the computer. Through the use of highly advanced technologies and specialized expertise in this field, we help you see and understand design as if it is on the ground by presenting multiple models for your ideas. And there is an agreement on any modifications you require and then we proceed with the manufacturing process after we fully guarantee your satisfaction.

# 4. WALL AND CEILING CLADDING

The basic function of cladding is covering what is behind it. And our role is to implement and install them with the finest types of well-studied finishing materials, which makes the final result very distinctive.

#### 5. KITCHENS

Our use of modern design techniques, tools and quality raw materials have made our Kitchens a benchmark of excellence. Making the best Kitchens is what we do best. we not only offer you products that help you prepare, serve, store home-cooked meals, but actually aid you to accomplish your chores quickly and easily.

The kitchen is the heart of the home. It is the place where the family spends quality time together. The kitchen stands at the center of your family's everyday life. This in itself is reason enough for you to desire a functional, appealing and modern kitchen design without a worry.

# **VENDORS APPROVAL**

Saudi Aramco F-Reference No. 0003630

#### Registration Approval Letter

March 13, 2021

Attention : TECHNO WOOD FACTORY FOR INDUSTRIAL

CR Number : 2050204735 Supplier Type: Manufacturer Only Country : Saudi Arabia

We are pleased to inform you that TECHNO WOOD FACTORY FOR INDUSTRIAL is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10067972, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramoo to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramoo's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for in-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Moamar Khazal Al Usalmi, Supervisor Supplier Registration Unit Supplier Relationship Management Div

it is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

- 1. Change of Name / Commercial Registration Number / Address / Owner(s)
- 2. Any change of the supplier location
- 3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramoo. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramoo.com
